

## **2014 DVD Table of Contents**

### **Disc 1**

#### **In Memoriam**

##### **AFTE 2014 Keynote Speaker**

Jeff Baird, King County Prosecutor's Office

##### **The Effects of Frangible Ammunition on the Structure of Striae Created by a Rifled Barrel and the Value of Frangible Ammunition for Examination**

Mindy Raines, Scottsdale Police Department

##### **The Supreme Court and Forensic Science**

Carey Hall, Minnesota Bureau of Criminal Apprehension

##### **A Review of How the Physical Properties of Glass Explain the Shapes of Bullet Holes**

Robert Caunt, Vancouver Police Department

##### **Gunshot Cases I Have Known and Loved**

Dr. Aldo Fusaro, King County Medical Examiner's Office

##### **An Examination of Recent Mass Shooting Reconstructions Accomplished by the FBI Laboratory's Firearms/Tool Marks Unit**

Erich Smith, Federal Bureau of Investigation

##### **Tool Marks Identification on Sawed-Off Shotgun Plastic Wads**

Dr. Danny Roberge, Forensic Technology, Inc.

##### **Tissue Simulants: A Dangerous Fallacy**

David Andrew, Flinders University

##### **Blind Study Comparison of Virtual Marks to Toolmarks**

Ryan Spotts, Iowa State University

### **Disc 2**

#### **SWGUN - Updates and Current Projects**

Andy Smith, San Francisco Police Department

## **Overview of the NIST Process Towards the Establishment of the Scientific Area Committees**

Susan Ballou, National Institute of Standards and Technology (NIST)

## **Comparison of EvoFinder to FTI IBIS Heritage**

Alex Taflya, Contra Costa County Sheriff's Office

## **A Shot in the Yard: Shooting Reconstruction**

Alexander Jason, ANITE Group

## **Mis-Adventures in Metallurgy: Case Examples, Guns & Ammo**

Frederick Schmidt, Engineering Systems, Inc.

Dana Medlin, Engineering Systems, Inc.

## **The Glock Marking Barrel**

Stephen Deady, New Jersey State Police

## **Subclass Characteristics of Ruger Hammer Forged Barrels**

James Hall, Illinois State Police

## **Establishing a Reference Ballistic Tool Mark Database for Research and Development of Identification Systems and Confidence Limits**

Xiaoyu Alan Zheng, National Institute of Standards and Technology (NIST)

## **Quantitative Comparison of Striated Tool Marks**

Martin Biaker, Netherlands Forensic Institute

## **Disc 3**

## **Error Rates and Random Match Probabilities Based on the 10-Barrel Test and the GLOCK Cartridge Cases Test**

Jim Hamby, International Forensic Science Laboratory & Training Centre

Nicholas D.K. Petraco, John Jay College

## **The Long .40 S&W Casing**

Julie Knapp, Colorado Bureau of Investigation

## **The Gun That Really Won the West**

Luke Haag, Forensic Science Services

## **Experimental Studies Into the Behaviour of Gunshot Residue and the Implications for Evidence Interpretation**

Michaela Regan, University College London

## **1260 Smith & Wesson M&P9 Pistols Inter-Compared Using MatchPoint: An Evaluation of the Science of Firearm and Tool Mark Identification**

Jay Stuart, Albuquerque Police Department

Mike Haag, Albuquerque Police Department

## **Complying with Measurement Uncertainty Standards for Accreditation in the Firearms Unit - a Canadian Example**

Christina Telizyn, Centre of Forensic Sciences

**Five Common Gripping Tools Defined by the Class Characteristics They Produce**

John O'Neil, Independent Consultant

**East German Makarovs: From Cops to Criminals**

Daniel Malheiro, Metropolitan Police Service/New Scotland Yard

**The Effect of High Velocity and Low Bullet Weight on Land and Groove Measurements**

Stuart Jacobson, Idaho State Police Forensic Services

**Case Report - Verger Killed in Church**

Dr. Jan F. Eckert, Bundeskriminalamt

**Disc 4**

**Progress Towards a Novel 3D-Topography Imaging and Analysis System for Firearm Identification, TopMatch-GS, and Results of a Large Scale Study**

Ryan Lillian, Cadre Research

**NIST FMC Project Final Report - Establish the "NIST Ballistics Identification System (NBIS)" and the "National Ballistics Evidence Search Engine (NBESE)"**

John Song, National Institute of Standards and Technology (NIST)

**Validating an Automated Pre-Screening System by Use of Large Databases**

Jan De Ceuster, Naionaal Instituut voor Criminalistiek en Criminologie

**Stabilized Relative Frequencies of Random Striae and Their Contribution to Firearm Individualization: An Empirical Study Using 625 Beretta model F/FS Semi-automatic Pistols**

Srinivasan Rathinam, Los Angeles Police Department

**The Role of 'Consecutiveness' in Pattern Definition**

Srinivasan Rathinam, Los Angeles Police Department

**Microscopic Comparisons Utilizing 3D Technology**

Thomas Matsudaira, Orange County Crime Laboratory

**An Error Rate Study for Examinations of Fired Cartridge Cases**

Dr. David Baldwin, Midwest Forensics Resource Center

**NIBIN - A Crime Gun Intelligence Perspective**

Ron Nichols, Bureau of Alcohol, Tobacco and Firearms
