

Mentor Rules and Assurance Form

1. Technical guidance will be provided to the student, for example, answering questions and reviewing on-going work.

2. Monthly progress reports from the student will be reviewed and feedback provided. If progress reports are not received, the cause will be determined and remedied.

3. The finished article will be reviewed for content, scientific soundness and format prior to submission to the R&D Committee.

3. The AFTE mentor will be identified as such under the student author's name and credentials in the AFTE Journal.

4. Monthly progress reports from the Trainee/Student should be forwarded to the AFTE R&D committee chair.

I have read the above and agree to adhere to the rules and assurances set forth by this committee.
